

Resurrection Life

Community Mennonite Church Easter Season 2018

During this Easter season, we will focus on stories of Jesus, who is filled to overflowing with God's resurrection life. In each of these stories, Jesus teaches his beloved friends - and us - through instructions and metaphors, what it means to live as people filled with everlasting and unquenchable resurrection life. Just as those first disciples puzzled and pondered over the meaning of these words for their lives, we will wonder together what it might mean to be people empowered and sent by God, as bearers of God's life. And throughout this season of Easter, we will celebrate and give thanks the many ways we see God's resurrection life at work within and through our congregation as we live together as beloved friends of the resurrected Christ.
